

MULTI-ROLE ENROLLMENT

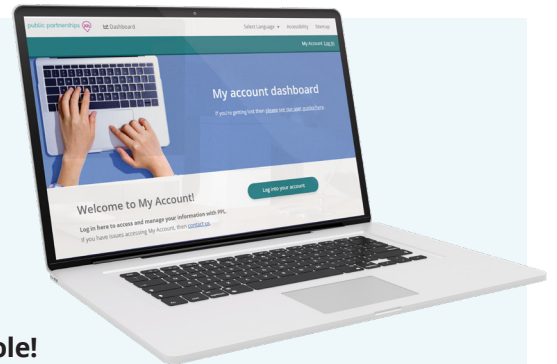

What should you do if you need more than one MyAccount?

Do you need to serve two roles in your PPL program?

Perhaps you are the care/support worker (provider) for one participant and would like to be the authorized representative for another participant. With the new Multi-Role Enrollment Feature in MyAccount, you can easily register for both!

Here is some information regarding registering for more than one role!

MULTI-ROLE

What does “Multi-Role” mean? The multi-role enrollment feature will allow you to serve as the provider for one participant and an authorized representative for another participant in the same program.

- Each role MUST use a separate email address.
- Registration and enrollment will remain the same.
- You will receive your registration email to your chosen separate email address.
- You will need to sign in with the email address associated with the correct role
 - You may have different dashboard options depending on the role they sign in under.

Important! You will not be able to enroll in multiple roles under the same participant (e.g. users can't be the provider and authorized rep for the same participant).
