

Time4Care mobile app public partnerships

One app capable of capturing all information required for Electronic Visit Verification compliance

Is Electronic Visit Verification coming to your state and program? Don't stress. We are here to help.

Public Partnerships | PPL has created a mobile app, Time4Care™, that offers you a quick and easy, “on-the-go” option for timesheet entry, management, and approval. The app is compatible with both Apple and Android devices.

Time4Care helps ensure program participants maintain care and support.

Time4Care helps pay your care/support workers on time by displaying any timesheet issues at submission.

Time4Care is capable of capturing and verifying all information required for Electronic Visit Verification (EVV) compliance, including:

- Type of services delivered
- Date of service
- The individual receiving services
- The individual providing services
- “Real time” shift clock-in (start) and clock-out (finish) times
- Location of the support/care worker when clocking-in and -out

Wherever you are in your self-directed home care journey, we are determined to use our size, experience and growing capabilities to continually invest in our mission to transform more lives by making self-directed home care easier for all.

With simple screens, clear language, and easy navigation, Time4Care provides peace of mind.

EVV-compliant logging of care/support workers' location data ONLY when clocking-in or -out

Reminders to submit and approve timesheets

Notifications that timesheets have been approved and submitted

Realtime cross-checking of all entries to program rules

The ability to document your activity and keep you organized

A simple calendar-like interface for easy time and review approval

Easy viewing of pay details and detailed pay stub images

Freedom to enter time offline without internet access

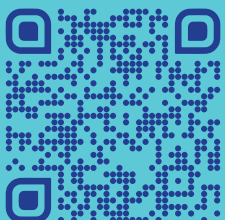

Full integration with PPL's web portal – no need to remember two logins!

Optional lock features to ensure your privacy

Built-in e-signature

**Simple. Easy.
Convenient. Secure.**

**And, most importantly,
EVV compliant.**
